TO REGISTER!**

Learn everything you always wanted to know about makeup but your mom never told you -- & you were too afraid to admit to the MAC lady that you didn't know! We'll start with actual application techniques on everything from bronzers to false eyelashes, demonstrating how you know what colors and techniques will look the best with your face shape and coloring. Find out what the differences are between your normal evening makeup & stage makeup, including which products will last through the sweat of your performances, and discover theatre techniques to help open your eyes, pout your lips, make your facial features pop where you want them to & fade where you don't. Then we'll have a little hands-on time practicing the time-honored technique of "arabic smoky eyes". And let's not forget about hair! We'll cover everything you've always wanted to know about performance hairstyles from fake hair to hair decorations to how to keep all of that stuff on your head when you dancing your heart out.

***Bring your current makeup kit (including a pair of false eyelashes!), a small mirror (preferably on a stand), makeup remover & something to take notes on!*
